PRESIDENT SHOT.

Cowardly Assault Made at the Pan-American Exposition.

TWO BULLETS TOOK EFFECT.

Well Dressed Man Approached With Hidden Revolver to Meet Him.

FIRE SHOT WHILE SHAKING HANDS.

The President and His Party Had Spent the Day at Niagara Falls and Had Just Returned for a Public Reception in the Temple of Music—Man Who Did the Shooting Under Arrest.

Buffalo, Sept. 6.—President McKinley was shot twice in the stomach by a well dressed man with whom he was shaking hands in front of the Ethnology building while on his way to the Temple of Music at the Pan-American exposition to hold a public reception.

The president was shot by a well-dressed man who wore a high hat and who while shaking hands with him fired the shots with his left hand.

As the man reached the president, it is said he had the revolver covered with a handkerchief, and as he reached out his hand to shake the president's hand he fired.

The president was at once removed to the hospital on the exposition grounds, in a serious condition, the fear that he was fatally wounded being instantly felt.

A bullet which had lodged against the breastbone has been abstracted.

The man who shot the president was arrested and taken to prison. He admits that he is an anarchist and that he is a resident of Detroit. He says he is of Polish nationality, and his name is given as Fred Nieman. He has resided on Broadway in Buf-

fare a week. A dispatch from Detroit, however, says no such name appears in the directory of that city.

An attempt was made to lynch the prisoner, but the police succeeded in getting him out of the grounds.

President McKinley and party and a military escort numbering in all about 100, left here at 9 a. m. on a special train on the New York Central railway and the Great Gorge road for Niagara Falls. Arriving at the Falls, the party was driven around Goat Island and to the International hotel for dinner. After dinner a visit was made to the power system, after which the special train was boarded for the return trip to Buffalo.

The president's party reached Niagara Falls about 9:20 and proceeded at once to Lewiston, where the party arrived at 9:30 o'clock. There was a crowd of excursionists at the dock waiting to take the Toronto boat, but the president's coming had evidently not been noised about and he and his escort attracted no extraordinary attention.

At Lewiston, the party boarded four special trolley cars of the Gorge route and were whisked up along the river bank to Niagara Falls without making a stop. Alighting at Main and Second streets 25 carriages were waiting to take the president and party on a short tour of the city. Mayor Butler of Niagara Falls, General S. M. Welch and Captains Pagan, Chapin and White of the Sixty-fifth regiment acted as escort. The president was driven to the steel arch bridge and then back to the International hotel.

The party was then driven through Prospect park, around to Goat Island, returning to the International hotel.

where a cold luncheon was served. After luncheon and the visit to the power house the party returned to the exposition grounds.

President McKinley and party arrived at the exposition grounds from Niagara Falls at 3:30. The president and Mrs. McKinley went to the Mission building, and from there started to the Temple of Music, where the public reception was to have been held at 4 o'clock.

The President was to have attended a reception in his honor at the home of George D. Williams in the evening.

Similar Names.

Detroit, Sept. 6.—There are two men named Frederick Neiman, not Nieman as the name is given in dispatches from Buffalo, in the directory. One is a laborer, the other a gardener.

GAVE UP HIS OFFICE.

State Treasurer of Mississippi Hands In His Resignation.

Jackson, Miss., Sept. 6.—J. R. Stowers, state treasurer, suspended by Governor Longino last week as a result of an alleged shortage found when the governor counted the cash, and which was made good later tendered his resignation as treasurer and the governor accepted it. The governor will, it is understood, appoint Acting Treasurer Carlisle to the vacancy and order an election as provided by law.

Bicyclist Nelson's Injuries.

New York, Sept. 6.—John Nelson, the bicycle rider, who was injured by a fall at Madison Square Garden Wednesday night, is still at Bellevue hospital, and there was no perceptible change in his condition. The physicians say that unless blood poisoning sets in the injury to Nelson will not prove fatal. Whether it will cause a permanent lameness which will prevent him from ever riding a race again is a question which can not be determined for some time, and they add that the muscles and tendons of the leg are so badly hurt that there is no possibility of his being able to ride again this year at least.

Lawton Monument.

Indianapolis, Sept. 6.—The General Lawton monument will be located in the middle of the approach to the Delaware street entrance to the courthouse. It will probably be a full length bronze statue of the dead soldier, modeled by Sculptor French. The location of the monument on this site was assured when the county council decided to authorize the \$2,000 appropriation requested by the county commissioners. This action will enable them to comply with the conditions stipulated by the monument commission, that the county pay for the stone base and for locating the monument.

Norfolk Shipbuilding Plant.

Norfolk, Va., Sept. 6.—Within 30 days work will be commenced on the water front of Norfolk harbor upon the erection of a \$1,000,000 shipbuilding plant which will be owned jointly by the Trigg company of Richmond, a big shipbuilding firm of Philadelphia and another company of Bath, Me., which builds sailing vessels. The site of the plant is within the city limits adjoining Old Fort Norfolk, where 30 acres have been purchased at a cost of \$50,000 and options are held on 150 acres more.

Indiana Warden Resigns.

Michigan City, Ind., Sept. 6.—Warden George Shidler of the Indiana state prison tendered his resignation to the governor to take effect Oct. 1. At the request of the board he will remain until Nov. 1. He will return to his home in Marion. In his letter he says: "Recently created conditions, and the fact of these conditions being known, make it impossible for this institution to progress under my administration."

General McKeever Dead.

Washington, Sept. 6.—Word was received at the war department of the death of General Chauncey McKeever, United States army, retired, at a health resort near Emden, Hanover, Germany. General McKeever was born in Maryland and was graduated at the military academy in July, 1849, and retired Aug. 1, 1893, at which time he held the rank of colonel and assistant adjutant general.

Was a Valuable Horse.

Marion, Ind., Sept. 6.—Glenmoyn, the running horse which made such a good record on the Chicago tracks in 1893-94, when he cleared \$120,000 for the owner, Harry Goldstein, burst a blood vessel while being worked on the Marion driving park track and died in a few minutes. S. L. Davis owned the animal at the time of death.

London, Sept. 6.—It is announced in Odessa, according to a dispatch from that city, that the Russian government intends to take over practically the whole private quay property at Sebastopol, with a view to converting the port into a naval harbor.

HAD IT HOT AND HEAVY

South African War Discussed at the Ecumenical Conference.

PREACHERS FREELY EXPRESS VIEWS.

Fierly Speeches Were Made For and Against the Transvaal War But No Conclusion Was Reached—Dispatches From Foreign Lands.

London, Sept. 6.—A stormy meeting of the Ecumenical Methodist conference resulted from the reading by the Rev. C. Smith of Pittsburg, Pa., of a paper on "The Influence of Methodism in the Promotion of International Peace." The five minute rule was adopted and the pastors made fiery speeches for and against the war in South Africa. The campaign came in for a lot of criticism, and finally the chairman ruled reference to it out of order. Many Americans took part in the discussion, but none of the more prominent bishops spoke. The speeches were punctuated by frequent noisy interruptions and cheers and counter cheers. There was a scene of considerable disorder and the discussion terminated without any conclusion being reached.

The Rev. George Elliott of Detroit, saying he had often been called a little American, bitterly denounced the war against the Boers.

The Rev. J. C. Cooke of Chattanooga defended the necessity of hostilities to vindicate a principle.

The Rev. J. M. King of Philadelphia said the best solution of the question was in President McKinley's sentence, uttered at Buffalo, as follows: "The period of exclusiveness is past. The expansion of our trade and commerce is the pressing problem. Commercial wars are unprofitable. A policy of good will and friendly trade relations will prevent reprisals. Reciprocity treaties are in harmony with the spirit of the times; measures of retaliation are not." The reading of President McKinley's remarks brought forth applause.

Robert W. Perks, a member of parliament, a prominent contractor and vice president of the Liberal Imperial council, deprecated the usefulness of clerical manifestos. He believed that some wars were necessary, but the growing tendency toward unnecessary strife was due greatly to the influence of corrupt, unlicensed journalism.

The Rev. E. E. Hoss of Nashville, Tenn., said it would be impertinence for the conference to tell Great Britain what to do in South Africa.

Information Wanted.

Berlin, Sept. 6.—Great surprise is felt here that the semi-official press has not thought it necessary to give an account of the negotiations at Basel from the German point of view. All the information has come from Chinese sources. The German minister at Peking sticks to the assertion that the delay was caused by the fact that the protocol was not signed. Similar statements are made by Berlin papers. It would be interesting, therefore, to know why the emperor gave way on this important point.

Europe Against Pan-Americanism.

London, Sept. 6.—Editorially discussing South American matters, the Standard says: "Europe will never march out of America, North or South, at the bidding of the Monroeists. In fact, Pan-Americanism in its widest sense is idle. But the necessity for the United States to become the predominant political and commercial power is decided by the economic need of finding an outlet for an ever increasing surplus production."

Dreyfus Case of Germany.

Berlin, Sept. 6.—Sergeant Marten, who was condemned to death for the murder of Captain Von Krosigk, has been removed to the military prison at Dantzig. Sergeant Hinkel, though acquitted of the charge has been informed that his engagement as a non-commissioned officer will not be renewed. Similar notices are said to have been served on three other non-commissioned officers who testified in favor of Marten and Hinkel.

Boer Commando Captured.

London, Sept. 6.—Lord Kitchener's reports from Pretoria to the war office the capture of Lotter's commando. He gives the figures as 19 killed, 52 wounded and 62 captured. The prisoners include Commandants Lotter and Breedt, Field Cornets Kruger and W. Kruger and Lieutenant Shoeman. Among the killed were the two Vasters, notable Boer fighters. The British casualties were 10 killed and 8 wounded.

Chattanooga, Tenn., Sept. 6.—At the instance of Samuel Gompers, State Organizer M. J. Noopan, of the Federation of Labor, is here to induce the National Association of Letter Carriers to affiliate with the Federation.

ISTHMIAN WRANGLE.

Ecuador Has Decided to Cast Her Lot Against Colombia.

Washington, Sept. 6.—The Colombian charge d'affaires, Thomas Herran, called at the state department and had an extended conference with Acting Secretary Adee concerning the latest phases of the trouble at and about the Isthmus of Panama, and particularly the official dispatches from Colombia stating that Ecuador had cast her lot against Colombia.

Mr. Herran presented two dispatches, one from Call, near the Ecuadorian frontier, and the other from Panama. Secretary Adee and Mr. Herran went over the situation on the Pacific and the Atlantic side and discussed the steps which should be taken on the part of the United States. The presence of the Iowa and the Ranger at Panama will give a large available force. Colombia also has some small craft at Panama and it is expected that as a result of the new developments these will be moved south toward the Ecuadorian border. On the Atlantic side, Bocas Del Toro continues to be a critical point and the navy department is preparing to have a vessel there on short notice.

Want Troops Landed.

New York, Sept. 6.—It is said that local merchants whose business has been affected by the depredations of the guerrilla bands operating along the Isthmus of Panama suggest that it is about time the United States landed troops under the treaty with Colombia to put a stop to the disturbances which are injuring trade and threatening American property. They also declare that the shutting off of military supplies to the insurgents which are being shipped from this port would do much toward ending the existing trouble. Ship captains who during the last few weeks have visited ports in Venezuela, say that large supplies of arms from Belgium and Germany are being landed in that country.

O. N. G. to Be Cut Down.

Columbus, O., Sept. 6.—It is reported that the military authorities of the state are contemplating a reduction of the strength of Ohio National Guard to 2,000 men. The reason given is that many cities do not furnish suitable armories for their military companies and as a result thousands of dollars worth of arms and equipments, the property of the state, and valuable arms of the United States, for which the state is responsible, are stored in unsafe places. Adjutant General Geringer is quoted as saying that the reduction of the guard has been considered some time, that with a guard of 2,000 to 2,300 the state would receive just as much money from the general government for its support, and the military stores could be made more secure.

Fleming Hanged.

Dear Lodge, Mont., Sept. 6.—James McArthur, alias James Fleming, was hanged here for the murder of Captain Oliver Dotson last February. The execution was witnessed by nearly every sheriff in the state and a large number of invited guests. Fleming kept his nerve to the last and walked to the gallows without a sign of weakness. After taking his place on the platform, he was given permission to make a statement. Facing the spectators, he launched into a torrent of abuse of the man who had been instrumental in sending him to his death and declared again and again that he was innocent. He rambled on several minutes and finally the sheriff seeing there was no chance to stop him, gave the signal for the trap to be sprung. The drop fell and McArthur was pronounced dead seven minutes later.

Ohio Census Figures.

Washington, Sept. 6.—The census bureau issued a statement showing the result of the enumeration of the population of Ohio in respect to persons of school age and males of militia and voting age. The statement shows that white males constitute 39.8 per cent of all the males of voting age in 1900. The proportion of colored male voters is only a little over 2 per cent. Of the total number of voters the percentage of illiterates is 4.8, of which 3.7 per cent are whites of native parentage. The males of militia age are 34.9 of the total male population. Of the persons of school age 3.1 per cent are foreign born.

King Edward's Heart.

Determined to Open the Mills Regardless of Furher Action by Amalgamated Men—Advisory Board Met For Conference.

Pittsburg, Sept. 6.—The Demmert plant works at McKeesport resumed operations Friday morning. Six mills out of 15 were started, with nearly 100 men, many of them being old employees. There was no disorder. The deputy sheriffs were on duty, but there was nothing for them to do as only a few strikers were about the premises. A notice was posted at the Demmert works calling the attention of the old employees to the fact that the plant had resumed and requesting all who wished to return to work to report for duty not later than Monday morning, or their places would be filled by other workmen. The notice was signed by the American Tin Plate company. Manager Lauck stated at that time that he had seven mills running and had enough men to fully operate them.

At the National Tube company's plant at McKeesport, 500 nonunion men started to work, making 1,000 men now in the department. A large number of others applied for work, but they were turned back because the mill was not in shape to take on any more men. There was no attempt made by the strikers to stop the men as they went in. The management claims that by next week the entire establishment will be in operation and the strike a thing of the past.

The situation at the plants in Pittsburg was not greatly changed. At the Pennsylvania Tube works over 200 men are now at work. A meeting of former employees who are still out has been arranged for Saturday afternoon, when Manager Latschaw will have a conference with the men.

At the Painter works in this city, the management announced that it had enough men to run double turn.

Rumors were current on the South Side that the Monongahela plate works would be started in a few days. A wagon load of cots was said to have been taken into the works and sleeping and eating quarters were being erected in the mill for the use of the imported men to be brought here to break the strike.

Amalgamated Board Meeting.

Pittsburg, Sept. 6.—The advisory board, or general executive committee of the Amalgamated association has been ordered to this city to consider what is believed to be the practical ultimatum of the United States Steel corporation. Those already here are: W. C. Davis, of Chicago; D. H. Davis, of Newport, Ky.; Walter Larke, of Martin's Ferry, Ohio; John Morgan, Cambridge, O.; J. F. Ward, Youngstown, O.; Clem Jarvis, Anderson, Ind.; Elias Jenkins, Youngstown, O.; David Rees, Pittsburg; John Chappelle, New Castle, Pa., and F. J. Williams, Birmingham, Ala. President Shaffer was early at Amalgamated rooms, but he refused to give any information or admit that a conference had been called. The others were equally reticent. Among the rumors current was one to the effect that the board would go to New York, but this could not be confirmed. Another report was that a plan for the settlement of the strike would be decided upon that would be acceptable to the steel companies.

All Negotiations Ended.

Pittsburg, Sept. 6.—In steel corporation circles in Pittsburg it was positively announced that the last offer made by the big steel combination had been rejected by the Amalgamated board and that all negotiations are ended. Orders have been given to start all idle plants immediately and the superintendents of the various works in this district at once began to make preparations for resuming immediately with nonunion men and all strikers who desire to return to their former places.

Strike Breakers Sent to Indiana.

Elwood, Ind., Sept. 6.—The members of the striking Amalgamated association at Gas City have received word that nonunion men have been imported to take their places in the mills. They are patrolling the streets surrounding the factory. A committee stops every stranger that alights from the trains.

Assaulted By a Striker.

Canal Dover, O., Sept. 6.—General Manager Cline of the American Sheet company's plant was assaulted by a striker and was carried to his carriage unconscious.

FATAL ACCIDENT.

Mrs. James Pogue, of Mayslick, Killed in a Runaway Last Evening,

And Her Sister, Miss Lottie Culver Jones, the Elocutionist, Seriously Injured.

Mrs. James Pogue, whose home is near Mayslick, was almost instantly killed, and her sister, Miss Lottie Culver Jones, of New York City, was seriously injured in a runaway accident last evening about 5 o'clock.

Miss Pogue had been visiting her sister the past two weeks, and Friday afternoon the two made a social call at the home of Mr. Ben Johnson near Johnson Junction. They drove over in a buggy, and on the way home their horse frightened it is said at a hog on the roadside and ran off, overturning the buggy after going some distance and throwing the occupants to the ground. The horse then kicked the vehicle to pieces.

Mrs. Pogue's skull was fractured either by striking some object when the buggy was overturned or by a blow from the horse's feet. She died while being conveyed to her home.

Miss Jones was more fortunate, her most serious injury, it is thought, being a fracture of the leg. The fracture is near the knee, and it is feared the joint was crushed. Dr. Ranchoff, a Cincinnati surgeon, has been summoned, and the leg may have to be amputated. The full extent of her injuries was not known this morning.

Mrs. Pogue was about forty years of age and was a woman of charming manners, with a host of friends who were shocked by the distressing news of her terrible death. She and Mr. Pogue, who is one of the county's most substantial citizens, were married about ten years ago. She leaves no children. The funeral arrangements have not been announced.

Miss Jones is a charming elocutionist and has delighted many at social gatherings given in her honor on her present and former visits. She, with her sister, formerly lived at Ashland.

Make our house headquarters; every accommodation we can render you is yours for the asking for it. In honor of your presence in town we show for the first time this season the

New Fashions For Fall and Winter in Clothing, Haberdashery and Hats

for men, big and little boys. While not exactly in the nature of an exhibition, the showing is one that will interest men who wish to dress well and mothers who wish to dress their boys stylishly and serviceably at moderate cost. The features of the showing in Men's Clothing Department are the large representations of such famous manufacturers as Stein-Bloch Co., L. Adler Bros., & Co., Garson, Meyer & Co., and Michaels, Stern & Co., all Rochester, N. Y., houses, and notably the best in the world. Our sales of the production of above named houses justifies these firms to confine their lines to us only.

Our Furnishing Department has many pleasant surprises for the man who is particular about his Ties, Shirts, Collars and Hose. The Hat Department exhibits the most exclusive shapes and colors produced by the world-wide known John B. Stetson Co.
